INTRODUCTION

- UMPSA students struggle to find study partners, schedule sessions, and interact with peers from different majors, leading to isolated learning experiences.

- StudyBuddy is an online platform designed to connect students, simplify scheduling, and encourage cross-disciplinary interactions, enhancing collaborative learning at UMPSA.

PROBLEM STATEMENT

- UMPSA students struggle to form study groups and schedule sessions, especially freshmen and newcomers, leading to isolated learning and limited exchange of knowledge.

- Existing platforms do not cater to UMPSA's needs, hindering effective student connections and collaborative learning. Addressing these issues can create a supportive academic community and improve the educational experience.

SCOPE

- StudyBuddy will be a web-based platform for UMPSA staff and students with profiles, chat, resource uploads, study session scheduling, and a ranking system.

- The project includes developing, testing, and maintaining StudyBuddy, ensuring it has strong security, notifications, and continuous updates based on user feedback.
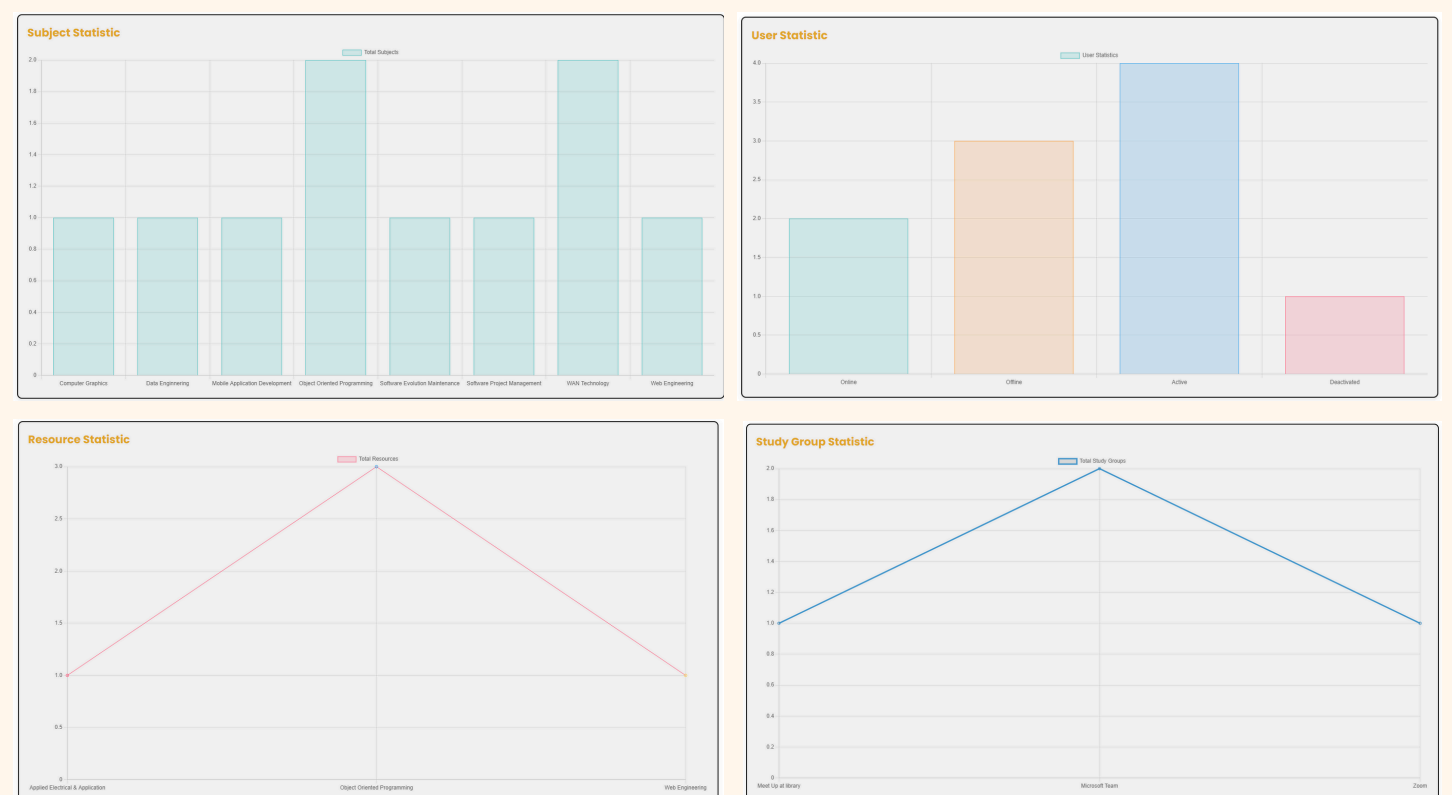

AIM & OBJECTIVE

- To study how people learn together and what makes study groups successful.

- To develop StudyBuddy, an easy-to-use online platform for UMPSA, with profiles, chat, resource sharing, scheduling, and a ranking system.

- To test StudyBuddy thoroughly to make sure it works well, is secure, and meets UMPSA's needs for collaborative learning.

METHODOLOGY

RESULT

The results of StudyBuddy's usage statistics show increased user engagement, diversified subject interests among users, active resource sharing, and a high frequency of study session scheduling, indicating successful implementation and adoption of the platform for collaborative learning.

CONCLUSION

To summarize, StudyBuddy is a tool for UMPSA students to work together online easily. It has profiles, chat, sharing, scheduling, and rankings. The project aims to understand group learning, make StudyBuddy, test it, and keep improving based on feedback.

MARKETABILITY

StudyBuddy works well in schools, colleges, and universities because it helps students collaborate better, communicate effectively, and share resources easily.
